

## **Armstrong Egg Farms Discussion with SDRWQB – 7/24/2014**

### **Agenda**

1. Go over inspection findings and concerns
2. Ask if report can be modified to reflect that it was additionally prepared by Dat Quach (with possible signature as well).
3. Discuss possible investigative, enforcement or permit responses to the findings
  - Can a follow-up inspection can be conducted by the state (to look at the manure processing area to the north and the ditch accepting runoff to the west, as well as the second Armstrong Egg Farm location to the north, up the road)?
  - WDR?
  - Order or other enforcement response?
